HURRICANE DORIAN: DISASTER RELIEF IMPACT REPORT

Bahamas Strong! Delivering Hope To Caribbean Families in Need

On September 1, 2019 Hurricane Dorian reached Category 5 intensity, delivering a devastating blow to the Bahamas. Grand Bahama and Abaco islands were hit hardest, including the loss of more than 60 lives, and the total destruction of thousands of homes.

Caring For Others quickly activated to lend a helping hand. With the aid of partners and volunteers, the organization rallied to offer relief to the 60,000 people in need of food, water, and basic necessities. The goal was to contribute, if only in small part, to the massive effort that’s required to provide comfort and restore hope.

"BECAUSE OF OUR PARTNERSHIP WITH CFO, ATLANTA SHOWED UP STRONG TO ASSIST OUR BAHAMIAN NATIONALS. WE ARE TRULY GRATEFUL FOR THEIR EFFORTS!"
-- ASTRA ARMBRISTER-ROLLE, BAHAMAS CONSUL GENERAL
CFO’s relief effort resulted in sizable impact:

- **$3.5M** in donated products received
- More than **$250,000** in services donated
- **7** shipping containers delivered
- Over **30,000 lbs.** of goods air-freighted

**Restoring Hope and Dignity with Speed**

With the tremendous manpower of volunteers and financial support of key partners, Caring For Others was able to quickly organize, pack and ship donated items. Within days, our team was on the ground ensuring proper delivery and distribution of water, clothing, shoes, household goods, and other much-needed items. The results are a testament to what is possible when we work together.

**Thank you to our partners, volunteers and Board of Directors**

While the spirit and resolve of the Bahamian people remain strong, the crisis is not over. The toll on the islands is still being assessed. It will take years to rebuild. Caring For Others plans to continue to help families in need by deploying additional relief efforts by yearend. Together, we are #BahamasStrong!
